 `int blocksize,`
 `string path) [static]`

6.3.1.5 UpdateBlock() `static bool LibraryManagement.FileUtility.UpdateBlock (`
 `byte[] data,`
 `int count,`
 `int blocksize,`
 `string path) [static]`

The documentation for this class was generated from the following file:

- [FileUtility.cs](#)

6.4 LibraryApp_DLL.password Class Reference

Public Member Functions

- void [login](#) ()

6.4.1 Member Function Documentation

6.4.1.1 login() `void LibraryApp_DLL.password.login ()`

The documentation for this class was generated from the following file:

- [password.cs](#)

6.5 LibraryApp_Application.Program Class Reference

The documentation for this class was generated from the following file:

- [Program.cs](#)
